From time to time, FMC hosts co-branded registration for some services provided by or in conjunction with our business partners. In those cases, we generally ask that our business partners adhere to the privacy practices described here. Nevertheless, we're not responsible for the privacy practices of our business partners and strongly encourage you to visit the privacy policy of any website prior to providing your information.

FMC also collects information from visitors to this website, from readers who have downloaded one of FMC's mobile apps or visited our social network pages, and from subscribers to our e-mail newsletters. If you enter into a transaction with us (such as a purchase (or in anticipation of an employment contract or services agreement), whether off-line or at this website, you will be required to provide information that is needed to complete the transaction, including your name, shipping address, product selection(s), and your payment information. Failure to provide any information may result in our inability to provide requested services or products, or consider your application for employment.

FMC passively collects information that is automatically sent to us by your web browser in order to customize your website experience for your device and reflect your preferences. This information may include your Internet Protocol (IP) address, the identity of your internet service provider, the name and version of your operating system and browser, the date and time of your visit, the page that linked you to FMC, and the pages you visit.

Cookie Generated Information

FMC may use cookie and other tracking technologies on its websites, mobile apps and social media pages. A cookie is a small amount of data that is sent to your browser from a web server and stored on your computer's hard drive or temporary memory. This website is cookie-enabled in order to give you a more personalized user experience. You may change your cookie settings on your internet browser or delete our cookies at any time. However, please note that if you disable cookies, the functionality offered by this website may be limited as a result. Each browser accessing an FMC website is given a unique cookie which is then used to determine the extent of repeat usage, usage by a registered user versus by an unregistered user, and to help develop content based on user interests and behavior. We also measure certain traffic patterns, which areas of our network of websites you have visited, and your visiting patterns in the aggregate. We use this research to understand how our users' habits are similar or different from one another so that we can make each new experience on an FMC website a better one. We may use this information to better personalize the content, banners, and promotions that you and other users will see on our sites. For more information, please refer to our [Cookie Policy](#) available [here](#).

Website Analytics

We require statistical information about the usage of our websites to design them to be user-friendlier and improve our services. For this purpose, we use the web analysis tools described in this section below. The providers of the tools process data only as data processors on our behalf and subject to our instructions. The usage profiles created by these tools using cookies or by evaluating so-called server log files (see above) are not combined with Personal Information; in particular, the tools either do not collect IP addresses or anonymize these upon collection.

You will find information on each tool's provider and how you are able to object to the collection and processing of data by the tool. Please note that tools may use so-called opt out cookies in order to remember your objection. This opt out function relates to a device or browser and is thus valid for the terminal device or browser used at this time. In case you use several terminal devices or browsers you must opt out on every device and in every browser used.

Additionally, you can generally avoid the creation of usage profiles by generally deactivating cookie usage.

- *Google Analytics*: Google Analytics is provided by Google Inc., 1600 Amphitheatre Parkway, Mountain View, California, 94043 USA ("Google"). You may object to the collection or processing of your data via <http://tools.google.com/dlpage/gaoptout?hl=en>

Social Media Plugins

This website may use social media plugins ("Plugins") by the following provider:

- *AddThis Services*; AddThis is operated under www.addthis.com by Oracle America, Inc., 500 Oracle Parkway, Redwood Shores, CA 94065, USA ("AddThis"). Find an overview of AddThis's plugins and their appearance here: <http://www.addthis.com/social-buttons>; find information on data protection at AddThis here: <http://www.addthis.com/privacy>

To increase the protection of your data when visiting our website plugins are embedded in a manner which ensures that a connection to the servers of the respective plugin provider will only be established if you click on the plugin.

Your internet browser establishes a direct connection to the respective plugin provider's servers only when you activate the plugins. This way, the plugin provider receives information that your internet browser has accessed the respective site of our website, even when you do not maintain a user account with the provider or are not logged in. Log files (including the IP address) are transmitted directly from your internet browser to a server of the respective plugin provider and may be stored there. This server may be located outside the EU or EEA (e.g. in the U.S.).

We have no influence on the scope of data gathered and stored by the plugin provider through the plugin. If you do not wish for the plugin providers to receive, save, and use data gathered through this website, you should not use the respective plugins. You can also block the plugins from being loaded with browser add-ons (so-called script blockers).

Find out more about the purpose and scope of the data collection as well as about processing and use of your data by plugin providers and about your rights and possibilities to change settings to protect your data in the privacy statements of the respective providers.
