and business-specific information on their team’s progress. Therefore, we will work on the following communications objectives throughout 2014:

- Continue to make sustainability relevant to employees and their jobs.
- Increase employee understanding of FMC’s sustainability metrics, targets and progress.
- Provide tools to increase the effectiveness of sustainability implementation teams.

We expect to pilot a focused training program in 2014 to help advance the objectives above.

**Fostering a Culture of Wellness**

Health and wellness programs help create a positive work culture which in turn contributes to employee satisfaction and well-being. FMC’s voluntary U.S. program “Choose Well, Live Well” provides an opportunity for employees and their family members to learn more about managing their health. Through the program FMC participants can take advantage of tools that encourage positive choices and access to tools and resources that improve their lifestyle. All participants are encouraged to set personal health goals and use the tools and resources available to help them achieve those goals. We believe we are creating a culture of shared respect and ethical behavior.

**Maintaining Respect and Ethical Behavior**

Affirming human dignity internally and across our value chain is a core value. In 2013 we expanded the Civil Treatment Program to managers throughout our global network – another step forward in becoming an ever-more inclusive and respectful workplace. We will expand the program throughout 2014 and will integrate it into the on-boarding process for new employees.

Additional activities that reinforced a culture of shared respect and ethical behavior included:

- Retraining and recertifying 97 percent of employees on the FMC Code of Ethics and Business Conduct. The remaining 3 percent are expected to complete the program in 2014 to ensure total compliance with the Code.
- Evaluating significant suppliers by Global Procurement based on our Supplier Code of Conduct.
- Initiating a Social Responsibility Program to increase transparency into all aspects of business practices at our manufacturing facilities.
- Updating our social media policy to provide guidance on dealing appropriately with the increasing intersection of one’s personal and professional profiles.
- Good faith collective bargaining in union relationships and ongoing dialogue in non-union sites to facilitate trust and collaboration.

**Enabling a Winning Team**

We continue to nurture talent internally, encourage STEM-talented youth, explore ways to increase workforce diversity and promote employee health and wellness. We are firmly committed to creating a culture that facilitates professional and personal growth, satisfaction and well-being in an inclusive and ethical environment.
